

Active Kinases

Quality and Reliability shouldn't cost a fortune!

With **abm**'s active kinases, get the consistent quality your research demands at prices your investment deserves.

High Purity

abm's active kinases are produced to ensure consistent quality and up to 95% purity, as assessed by SDS-PAGE, on every lot.

Assured Biological Activity

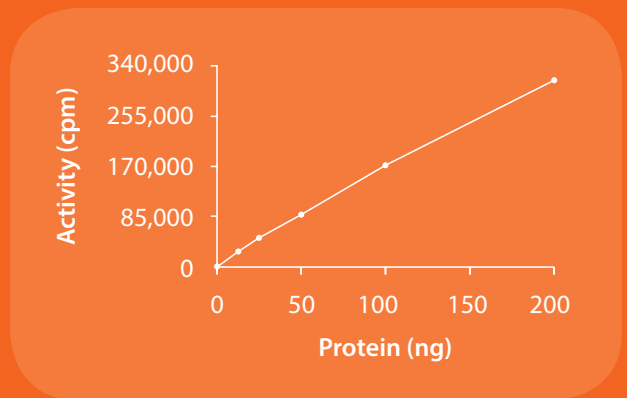

All of **abm**'s kinases are assayed to ensure reliable and reproducible functionality (specific activity is reported for each lot).

A Wide Selection

Choose from over 400 active kinases from Human, Rat, Mouse and others.

Application

abm's kinases can be applied towards specific kinase assays and western blot experiments.
